

Mojang is the developer of Minecraft. The latest version for the Mac is Minecraft PE 0.15.0(The same as the Windows OS). To play Minecraft for Mac you must have an activated Apple ID, the activation process and update is free. From Mojang: "Apple ID can be either your personal Apple ID or your developer account." On Windows 10 you can use a different account by using the Microsoft Account. As you can see the latest version is already downloaded and ready to install on you Mac, Windows, Linux. You can download Minecraft for Mac right now. On Mac OS you can download Minecraft for Mac Open Beta right now, if you are a Windows user you are missing the best and updated version, check it out. The version name is PE 0.15.0, so to download Minecraft for Mac in the open beta you will need a PE version of. When you first start up Minecraft for Mac you will be able to buy the game for \$19.99, the price will be listed inside Minecraft for Mac. The Mac version is 64-bit, the Windows version is 32-bit. This makes no difference when it comes to playing the game. Minecraft for Mac has some issues with the installer, mainly with the. First launch the installer, when the application starts up you will be able to buy the game, make sure to have a valid Apple ID. You can use the Buy Now button on the Minecraft for Mac game window, or you can login with your Apple ID. When you have logged in you can press the Play button in the top left corner, this brings up the Minecraft main menu on Mac OS X. Minecraft is a sandbox-style open world game that focuses on creative and survival mechanics. Players are given large areas to explore, and are free to fashion items to build anything imaginable. Players can craft tools from the natural materials around them and become more proficient at using them over time. Minecraft Download When you start up the game you will notice the name of the game, above the name of the game you will see the name of the version. For example below the name of the game you can see PE 0.15.0 on Mac, and Windows the Windows version is 32-bit. As you can see the Windows version is 32-bit, this makes no difference to your game. The Mac version is 64-bit, this can cause issues with some Windows applications, but it has nothing to
