New: The First Place, where you can enjoy thousands of free porn videos for each day, palcomix vip. During the visit, we have a chance to see some of the impressive LEGO Masterpieces. This is a very interesting attraction if you love LEGO or kids. The LEGO Masterpiece exhibition includes various types of LEGO. We have some from the "Modern" time, like the T-Rex skeleton, Pac-Man, Mecha Joker, etc, and the others are from the past, like the classic Mr. Men figures. You can compare the sizes of the set and the original sets of the different Masterpieces. Also, there is a chance to take the photograph with the famous LEGO characters like the Big-Headed Kid, Bad-Owlet, Tinkertoy Man, etc. And if you get a chance, don't miss to check the special display of LEGO customized cars that are actually made from real modified LEGO. Inside this event, we also managed to have a meeting

with some people who are very famous in the LEGO fandom world. They are: Claudia Choi, the European champion of LEGO Model Masters 2018; Tommaso Cibic, founder of Tommaso's Cribs, the famous LEGO fan club in Italy; Diego Di Matteo, the new star of LEGO Love Island 2018, and the representative of the LEGO Italia in the upcoming Eurocup. We also got to meet Simon Lopez, a major of LEGO, and an inspiration of the LEGO new characters. We were sure that this is a good event for all the lovers of LEGO from different parts of the world. And then, we were introduced to a very special guest. Ivan Rodgers, an expert in the LEGO culture and their kind of people has come to join us. We couldn't believe our eyes when we saw him. Ivan was actually one of the LEGO Masterpieces themselves. And Ivan wore the famous LEGO boxers that have appeared in the famous movie of the 80s and 90s. In general, Ivan is an extreme LEGO fan and has been surrounded by the LEGO culture from young age. During the time that we were joined

by Ivan, he said lots of good things about the LEGO City. Actually, the LEGO building is his favorite hobby, even if he started to play in 1984. In the meantime, he also has more than 4500 bricks. And his current projects are the famous Red Mobile (which will appear in The Force Awakens), the LEGO Modern Airport,
